FCC Caution (FCC ID: 2AJCLTWAC-TYWFS)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The distance between user and device should be no less than 20cm.

- "PP" means "Searching the router"
"SA" means "connected to the router"
"AP" means "connected to the server"

Air conditioner control

The device control screen will pop up automatically after adding the device.

The device control screen will pop up manually by tapping the device name on the home screen.

AIR CONDITIONER CONTROL

1. Click the air conditioner name to enter the control panel. Click the ON/OFF button to adjust the settings.

*Because of technical updates, there may be deviation from the information within this manual. We apologize for any issues.

Air conditioner control

2. Adjust the settings to the operating mode you want to use: Cool, Heat, Dry, Fan, Auto. Click the "Mode" button and choose the mode you would like. Some units are cooling only, therefore the Heat mode will be disabled.

In "Dry" mode, the App temperature display may differ from the unit display because of the fast changes in temperature.

3. For Fan mode, click the "Fan" button and choose the speed you want: Low, Med, High, Auto.

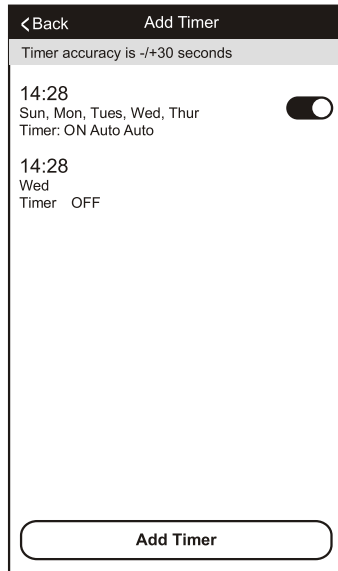

Air conditioner control

4. Other unit controls can be changed by selecting the "Function" button.

By selecting the Function, you can select the Sleep or Eco modes. In Sleep mode, the fan speed will be set to low.

5. To set the Timer function: Click the "Timer" button. The APP will enter the timer setting screen. It will display the time scheduler that was previously set. You can press to edit the timer or create a new timer by clicking the "Add Timer" button.

Air conditioner control

6. Click "ON" or "OFF" button to set Timer ON or Timer OFF.

You can set the: Hour, Minute, Operate Mode, Operate Fan Speed, Operate Temperature. You can also set a weekly timer.

After you're finished setting the timer, click the button to Cancel or Confirm.
